

EDUARDO VALLEJO

DEVELOPER

I've been developing for two years mainly with Javascript, php and mySql. My strong point is the Google Maps API and, most of all, my passion for coding and become a professional developer.

Currently studying the course "Desenvolupament d'aplicacions amb tecnologia web"(590h),C.E.Stucom.

>> JOB EXPERIENCE

MAY 2007 **Tecsolutions SL.**
SEP 2012 **Senior IT Recruiter**

Searching and recruiting for all kinds of IT profiles, from junior developers to project managers (also Database Administrators). Here it was when I remembered my childhood love for computer science and decided to quit this job to learn CS again.

ABR2005 **SITEL**
JUL 2007 **Telephone operator**

This time what I searched was all kind of information that the costumers asked me for. First we looked on our desktop application but, if not found, we had to find it on the internet. More than 500 calls per day.

>> EDUCATION

JAN 2014 **Harvard University - EDX**
MAR2015 **Cs50**

This was a milestone in my programming habilities. A very hard course where I truly improved my knowledge in Javascript, jQuery, php, html, CSS, mySql and, also, C.

MAR2013 **Centre d'estudis Parker**
JUN2013 **Analist-Programmer 360h course**

PseudoCode, Java, SQL, PL-SQL, html and CSS.

SEP 2000 **Universitat de Barcelona**
FEB 2005 **Degree in Psychology**

Knowledge of Artificial Intelligence, Game Theory and Cybernetics.

>> TECHNICAL SKILLS

Computer Skills

Language Skills

STRENGTHS

- +Hard working
- +Responsible
- +Passionate for programming
- +Creative
- +Reliable
